Professional Summary

Product Designer specializing in user research, interaction design, and AI-powered product experiences, with hands-on experience delivering end-to-end solutions through an Electronic Arts-sponsored capstone project. Recipient of the Best Overall Design Award from Design for America and multiple Dean's List honors.

Experience

Experience Designer (Capstone)

Electronic Arts

Seattle, WA
Jan 2026 - Jun 2026

- Researched second-screen habits and AI expectations through 100+ survey responses and 10+ user interviews
- Translated findings into key opportunity areas for FC 26 Career Mode, reducing information overload through AI-assisted decision support UI.
- Designed 4+ AI-assisted user flows and high-fidelity prototypes that explain player changes, recommend lineups, and support squad decisions

Product Designer

CountOn

Remote
Jun 2024 - Aug 2024

- Designed 8+ interfaces for AI-driven shopping assistant, improving clarity by restructuring information and adding comparison features
- Conducted 10+ usability testing, heuristic evaluation (NN/g), and competitive analysis for 4+ tools
- Delivered UX improvements for a responsive AI eCommerce experience and presented findings to stakeholders

Summer Intern

PwC Korea (Samil PwC)

Seoul, Korea
Jul 2024 - Jul 2024

- Researched investment opportunities through market and financial analysis, presenting 4+ executive level insights to support strategic decisions
- Conducted comparative research on 5+ global and domestic financial products, analyzing adoption trends, market positioning, and business performance
- Synthesized complex financial information into audit documentation, including NPL schedules and valuation-related reports

Education

University of Washington

Bachelor of Science in Human Centered Design & Engineering (HCDE), Minor in Informatics
GPA: 3.89/4

Seattle, WA
Sep 2022 - Jun 2026

Awards:

- Dean's List (Annual: 2023-2025; Quarterly: Winter & Spring 2026)
- Best Overall Design (Design for America 2024-2025)

Project

Project Designer

Design for America UW

Seattle, WA
Jan 2025 - May 2025

- Designed end-to-end UX for a virtual closet app using insights from 112 surveys and 17 interviews
- Built 4+ core features to support outfit planning and wardrobe organization
- Improved usability through testing (n=10+), achieving 4.1/5 score
