Experience

EA Games - Experience Designer (Capstone)

Jan 2026 – Jun 2026 | Seattle, WA

- Researched second-screen habits and AI expectations through 100+ survey responses and 10+ user interviews
- Defined opportunity areas for FC 26 Career Mode, focusing on information overload, decision support, and player control
- Designed 4+ AI-assisted user flows and high-fidelity prototypes that explain player changes, recommend lineups, and support squad decisions

Design For America UW - Project Designer

Jan 2025 – May 2025 | Seattle, WA

- Designed end-to-end UX for a virtual closet app using insights from 112 surveys and 17 interviews
- Built 4+ core features to support outfit planning and wardrobe organization
- Improved usability through testing (n=10+), achieving 4.1/5 score
- Awarded Best Overall Design among 6 teams by 3 industry judges

Count On - UX Designer

Jun 2024 – Aug 2024 | Remote

- Designed 8+ interfaces for AI-driven shopping assistant
- Conducted usability testing (n=12), heuristic evaluation (NN/g), and competitive analysis (4+ tools)
- Improved clarity by restructuring information and adding comparison features
- Delivered UX improvements for a responsive AI eCommerce experience and presented findings to stakeholders
